

## Creating Excellence Together: Standards 1 & 13

The **Creating Excellence Together** (CET) Standards were developed to measure expectations for Alberta service providers that support individuals within the field of community disability services.

**Standard 1: Individuals have homes.** This standard focuses on the choices of the Individual Accessing Services should have in regards to their living arrangements. The home should include the Individual's own personalization, have established routines, access to their home, safety in the home, sufficient space in the home, and a functional layout adapted to meet their needs.

**Standard 13: Individuals are supported to have homes.** This Standard focuses on how staff will provide support within the home to the Individual accessing the service as outlined in Standard 1.
